

TAROT

A bit of fun, or the chance to peek into the future?

Whatever your view of tarot readings, it is impossible to deny just how popular they are – and the perfect opportunity to add something just a little different to your event, be it a ball, prom, wedding or party.

Whilst it is possible to use a mix of tricks, psychology and leading questions (collectively known as ‘cold reading’) to give the impression of a reading, these are the real thing – based not only on the individual layers of meaning within each card in both the Major and Minor Arcana, but their complex interactive relationship with each other in a six card spread.

Although individual readings can cost £50, £90 - even more - the cost for a two hour session (about 24 readings) is only £245, or £335 for a full three hours - contact us now for more details!
